9 **FA Response:**

10 The 3,246 full credibility standard cited in the Facility Association response to CA-FA-10 was a typo,  
11 and the indications as presented were based on the 5,410 full credibility standard. The corrected  
12 response would read:

13 *The TPL indication consistent with a 0.0% cost of capital would be 46.0%, with the Exh C-2*  
14 *correction and using this alternate complement of credibility approach and using a TPL full*  
15 *credibility standard of 5,410.*
