

1 Q. (Reference 2017 GRA Volume I, page 1.11) Please confirm that the expected  
2 average island residential electricity rate inclusive of HST in 2021 will be 26.32¢ and  
3 that the present average rate for these customers, inclusive of HST is 13.46¢ and  
4 thus the “gap” referred to is 12.87¢ per kWh.

5

6

7 A. Based on current information, without rate mitigation, Hydro confirms that Nalcor’s  
8 projected average residential rate post Muskrat Falls increases are as indicated in  
9 the question.
