

1 Q. (Reference response to CA-NLH-41) It is stated that Hydro has had discussions with
2 Government about OC2013-345. Why did Hydro have such discussions, and what
3 was the outcome?
4

5

6

7 A. Hydro believes that this Request for Information was intended to refer to OC2013-
8 343 and responds accordingly.

9

10 Hydro had discussions with Government about OC2013-343 to explore the means
11 by which customers might benefit from reduced fuel costs as soon as the Labrador-
12 Island Link and the Labrador Transmission Assets are available to supply energy to
13 the island, prior to full commissioning of the Muskrat Falls Project. The outcome of
14 these discussions is reflected in Hydro's proposal in the present application for the
Board to establish the Off-Island Purchases Deferral Account.
