

1 Q. (Reference response to CA-NLH-34) Can Nalcor purchase power in the United States
2 and bring it to the Island over the ML before FERC has approved Hydro's open
3 access transmission tariff? When does Hydro expect to file and receive approval
4 from FERC of its open access transmission tariff? Please provide an overview of
5 FERC's review process and how stakeholders might participate.

6

7

8 A. The Federal Energy Regulatory Commission does not approve provincial open
9 access transmission tariffs. No such approval is required for Hydro to import power
10 over the Maritime Link.
