

1 Q. (Reference response to PUB-NLH-13) Please identify potential scenarios under
2 which there may be losses from purchases included in the proposed Off-Island
3 Purchases Deferral Account.

4

5

6 A. The losses referred to in Hydro's response to PUB-NLH-013 are transmission energy
7 losses. Hydro anticipates that all off-island purchases will incur transmission energy
8 losses and has proposed that the associated costs of energy losses be included in
9 determining the net savings in the proposed Off-Island Purchases Deferral Account.
