

1 Q. (Summary Report – Additional Cost of Service Information, page 15, lines 6 to 13) It  
2 is stated that there is uncertainty with respect to the availability of Recapture  
3 Energy owing to increased service requests from data centers. In the response to  
4 CA-NLH-30 Hydro confirms that the Island Residential rate post Muskrat Falls is  
5 projected to be 26.32 cents/kWh (HST included). Please update this figure for the  
6 case where there is no Recapture Energy available for supply to Island Customers  
7 post Muskrat Falls.

8  
9

10 A. The rate confirmed in Hydro’s response to CA-NLH-030 assumes that Recapture  
11 Energy is not used to serve Island Customers post Muskrat Falls. Therefore, no  
12 update is required to the projected residential rate based on this scenario.
