

1 Q. **Depreciation**

2 Exhibit 11, page 32 of 628. For account T05 Transformers, why is any net salvage
3 recommended if the test is to only establish net salvage amounts for assets that will
4 not be replaced at the same site. Is there a plan for Hydro to decommission and
5 dismantle T05 (Transformer) assets without replacement? If so, how would service
6 be provided to the customers in the relevant region?
