

1 Q. **Corporate and Governance Structures**

2 References:

3 (i) NLH 2017 GRA, Evidence, chapter 1, page 1.13

4 (i) « *Key aspects of the new organizational structure include:*

5 • *a dedicated and separate executive team that report directly to,*  
6 *and are accountable to, the President of Hydro;*

7 • *a Production division, encompassing Hydro Generation, the*  
8 *Holyrood Thermal Generating Station, Hydro’s fleet of gas turbines*  
9 *and diesels, and Exploits Generation, as well as Resource and*  
10 *Production Planning;*

11 • *a Transmission and Distribution division that will include the*  
12 *Newfoundland and Labrador System Operator (NLSO),*  
13 *Transmission Planning, Rural Planning, and Transmission and Rural*  
14 *Operations;*

15 • *An Engineering Services division focused on Hydro’s engineering*  
16 *activities, project execution, asset management, and operational*  
17 *and information technology;*

18 • *a Corporate Services and Regulatory Affairs division which includes*  
19 *Customer Service, Energy Efficiency, as well as Human Resources,*  
20 *Safety and Health, Environmental Services, Communications and*  
21 *Regulatory Affairs;*

22 • *a Corporate Secretary and General Counsel division responsible for*  
23 *providing legal advice to Hydro and corporate secretarial services;*  
24 *and*

25 • *a Financial Services division, which includes Controller, Treasury,*  
26 *Risk and Controls, Commercial Management , Internal Audit, and*  
27 *Supply Chain administration.»*

1           Please confirm that transmission and system operator functions are under the same  
2           vice-presidency, similar to Hydro-Québec?

3

4

5    A.    Transmission and Rural Operations and the Newfoundland and Labrador System  
6           Operator (NLSO) report to the VP, Transmission & Distribution and NLSO. This is  
7           similar to the organizational structure of Hydro-Québec (HQ). Hydro-Québec  
8           TransÉnergie (HQT), a division of HQ, operates and develops the Quebec  
9           transmission system under the direction of the President of HQT.<sup>1</sup>
