

1 Q. Are the costs of the circuit breakers and of the MFA-HVY projects included in the
2 Additional Cost of Service cost study different than the amounts included in Revision
3 4 of the Application? If different, please explain why.

4
5

6 A. The cost of service studies provided in the Additional Cost of Service Information
7 have not removed the cost of circuit breakers and the Muskrat Falls to Happy Valley
8 Project. As indicated in Hydro's responses to IOC-NLH-038 and IOC-NLH-041, the
9 required adjustments will be made in Hydro's compliance filing which will provide
10 Test Year cost of service studies and propose customer rates in response to the
11 2017 GRA Order.
