

NLH-LAB-003

Q: Further to NLH-LAB-002, if Hydro was relieved of the statutory duty to supply service in relation to a new customer, such as a data centre, in Labrador, would Hydro then also be relieved of the statutory duty to supply other new (non-data centre) customers in Labrador? If not, why not?

A. The following is the response of Mr Phil Raphals:

As noted in my response to NLH-LAB-002, the question is not whether or not Hydro should be relieved of its statutory obligations, but what terms and conditions the Board should apply.
