

1 Q. Re: Patrick Bowman and Patricia Lee Evidence, Section 4.0 Cost of Service, Page
2 32 et. seq.

3 Please provide Mr. Bowman's and Ms. Lee's estimate of the relative impacts
4 (in aggregate \$) of the proposed reconsideration of energy allocations for
5 Holyrood and wind generation upon the 2018 and 2019 rates charged by Hydro
6 to (i) the Island Industrial customers, and (ii) Newfoundland Power.

7 A. This response was provided by Mr. Bowman.

8 With respect to wind, please see Hydro's response to IC-NLH-143.

9 With respect to Holyrood, no modelling has been provided by Hydro. Mr.
10 P.Bowman has estimated the impact at potentially \$0.4-\$0.5 million, but it is
11 preferable to have Hydro run any formal Cost of Service scenario to develop
12 reliable and consistent estimates.
