

1 Q. **Volume 1 (1st Revision), Chapter 3: Operations**

2 Please reconcile the difference between Newfoundland Power’s generation credit
3 of 118,077 kW shown in Table 3-13 to the generation credit of 118,054 kW stated in
4 Section 5.6.5 Generation Credit. (Volume I (1st Revision), Chapter 3: Operations,
5 Page 3.23, Table 3-13 and Chapter 5: Rates and Regulations, Page 5.21, Lines 14-17)

6
7

8 A. The Newfoundland Power generation credit shown in Table 3-13 of Chapter 3
9 should indicate 118,054 kW, consistent with Chapter 5. The difference between the
10 118,054 kW in Chapter 5 and the 118,077 kW provided in Chapter 3 reflects a
11 difference in rounding when calculating the reserve percentage. In Revision 2 to the
12 Hydro’s 2017 General Rate Application – Volume I, filed on October 16, 2017 Hydro
13 filed a revision to Table 3-13 which shows the computation of the generation credit
14 at 118,054 kW.
