

1 Q. **Summary Report – Additional Cost of Service Information, Section 3.2.**

2

3 Please provide the revised energy production in GWh from the Holyrood Thermal
4 Generating Station and the on-island gas turbines for the Expected Supply Scenario
5 for the 2019 Test Year, together with an explanation of how the figures were
6 calculated.

7

8

9 A. Table 1 provides the energy production in GWh from the Holyrood Thermal
10 Generating Station and the on-island gas turbines for the Expected Supply Scenario
11 for the 2019 Test Year.

**Table 1 2019 Test Year Holyrood Thermal Generation Station and
On-Island Gas Turbine Production in Expected Supply Scenario**

Source	Thermal	Gas Turbine		
	Holyrood	Hardwoods	Stephenville	Holyrood
Production (GWh)	641.7	2.6	0.3	2.4

12 For an explanation of how the energy production was determined please refer to
13 Hydro’s response to CA-NLH-252.
