

1 Q. **Summary Report – Additional Cost of Service Information, Section 5.0, page 16,**  
2 **lines 9-13**

3

4 In Hydro’s response to Request for Information PUB-NLH-110 (Revision 1 –  
5 December 18, 2017), it is assumed that a significant amount of Muskrat Falls Pre-  
6 Commissioning production will be available in 2020. Please provide an estimate of  
7 the 2020 balance in the revised Energy Supply Variance Deferral Account  
8 attributable to the variance between the cost of off-island supply as assumed for  
9 2020 in the response to Request for Information PUB-NLH-110 (Revision 1 –  
10 December 18, 2017) and the Test Year cost of off-island supply.

11

12

13 A. Hydro is planning to file its next General Rate Application with 2020/2021 Test  
14 Years. As such, there is no forecast balance in the Revised Energy Supply Cost  
15 Variance Deferral Account related to 2020.
