

1 Q. **Rates and Regulations**

2 Page 5.8, lines 20-26 – What amount is included in the 2018 TY and 2019 TY  
3 specifically assigned charge for CPBB related to the frequency converter?  
4

5

6

7 A. The Cost of Service does not calculate the specifically assigned charges on an  
8 individual asset basis; however, less than 1% of the total value of assets specifically  
9 assigned to CBPP relate to assets other than the frequency converter. Therefore,  
10 under Hydro’s specifically assigned methodology, over 99% of the specifically  
11 assigned charges for CBPP for the 2018 and 2019 Test Years can be attributed to the  
frequency converter.
