

1 Q. **Additional Cost of Service Information filed March 22, 2018**

2

3 Page 8, lines 1-3. Does Hydro expect that due to the material uncertainty regarding
4 the amount of Recapture Energy available referred to in footnote 18 the amount of
5 purchases over the Maritime Link in 2018 and 2019 may increase from that
6 forecast?

7

8

9 A. If less Recapture Energy is available to displace generation at the Holyrood Thermal
10 Generating Station than forecast, market purchases over both the Maritime Link
11 and the Labrador-Island Link could be used to supplement Holyrood generation,
12 when technically, reliably, and economically feasible.
