

1 Q. **Re: Application regarding Confidential Information contained in Table 2 of Hydro's**
2 **response to PUB-NLH-149 Page 5, paragraph 10**

3 Who has access to the information contained in the Open Access Same-Time
4 Information System (Oasis)?

5
6
7 A. Access to the Open Access Same-Time Information System (Oasis) is managed by
8 the owner of the software that the Newfoundland and Labrador System Operator
9 (NLSO) uses to administer the provision of transmission service, Open Access
10 Technology International, Inc. (OATI). Parties desiring to see all information
11 published on the Oasis must become registered users by paying a small fee to OATI,
12 and meeting OATI's registration criteria. The NLSO has no involvement in approving
13 an application to become a registered user, and therefore can not restrict any entity
14 meeting OATI's registration criteria from becoming a registered user and gaining
15 access to this information.
