1 Q. **Reference: Evidence, page 5, lines 23-28**

2 Provide the number of Hydro personnel on the project team and the mandate of the team.

3

4

5 A. There were 24 Newfoundland and Labrador Hydro personnel assigned to the Business  
6 Systems Transformation Program, eight of which were on a full-time basis. Management  
7 and executive who participated on the Business Systems Transformation Program Steering  
8 Committees, and as Business Process Owners providing input at various stages, have not  
9 been included in this number. The mandate of the Business Systems Transformation  
10 Program team was to work with the implementation vendor throughout all phases of the  
11 Systems Development Lifecycle to ensure a quality product was implemented that met  
12 business requirements. Team members were involved in planning, requirement gathering  
13 and validation, data validation and testing, training, and deployment and post-deployment  
14 support.
