

1 Q. Please provide details of Hydro's monitoring and assessment plan for its Net
2 Metering Service Option.

3

4

5 A. Hydro will monitor and make available to the Board, Newfoundland Power, and the
6 Province, the statistics on its Net Metering program. This will include, but is not
7 limited to, the following information:

- 8
- 9 • number of applications received;
 - 10 • number of participants in the program;
 - 11 • total nameplate ratings of generation installed by participants;
 - 12 • costs associated with manual billing process;
 - 13 • amount of energy generation provided by net metering customers; and
 - 14 • amount of banked (or excess) energy credits settled on the anniversary
15 date.

15

16 Hydro will also, on an annual basis, monitor and assess the impact of any cross
17 subsidization on non-participants.

18

19 Based on that information, and incorporating feedback from customers and other
20 stakeholders, Hydro will assess the need for changes and if required, recommend to
21 the Board changes to the Net Metering Program that may be necessary.
