Dear Mr. Connors:

Re: Rate Mitigation Options and Impacts Reference - Response to PUB-Nalcor-078 - Revision 1, December 4, 2019

In our letter dated November 20, 2019, we requested an update to PUB-Nalcor-078 to reflect the current forecast for the 2021 average unmitigated domestic electricity rate and provide a reconciliation explaining all differences between the forecast of 22.89 cents/kWh given in September 2018 in the Reference Questions and in the June 2017 Project Update provided in the response to PUB-Nalcor-026.

The response to PUB-Nalcor-078, Revision 1 filed December 4, 2019 reflected a forecast 2021 average unmitigated domestic electricity rate of 21.16 cents/kWh based on the January 2019 Nalcor forecast. Please advise whether January 2019 is Nalcor's most current forecast. If it is, advise when an update will be available.

Nalcor's response must be filed by 3:00 p.m. on Friday, December 13, 2019. If you have any questions, please contact the undersigned.

Sincerely,

Sara Kean
Assistant Board Secretary
