

- 1 **Q. Please provide in Excel format, if applicable, any data, estimates, projections, or**  
2 **insights Newfoundland Power has on the potential adoption rate of electric vehicles**  
3 **in their service territory over the next approximately ten years.**  
4
- 5 A. Newfoundland Power has not developed projections for electric vehicle adoption in its  
6 service territory over the next 10 years. However, the Company has assessed adoption  
7 rates in other jurisdictions and broadly estimated what impact those scenarios would have  
8 in the local context. For more information, please see the *Electric Vehicle Market*  
9 *Assessment* report provided as Attachment A in response to Information Request PUB-  
10 NP-012.
