3
 4 A. Table 1 provides the number of planned and completed substation inspections in 2016,
 5 2017 and 2018.¹

6

**Table 1:
 Substation Inspections
 (2016-2018)**

	2016	2017	2018
Planned	1,076	1,075	924
Completed	953	1,010	992

¹ Newfoundland Power does not use the term *terminal station* for any of its substations. All Company stations that include transformation and switching equipment for transmission, generation and distribution purposes are referred to as *substations*. A description of the Company's inspection program for substations is provided in response to Information Request PUB-NP-056.
