

- 1 **Q. For the Small Hydro Transfer to NP Option, please provide:**  
2 **a. The estimated incremental change in current Newfoundland Power staffing**  
3 **(permanent and embedded contractors (if applicable) staff, support functions**  
4 **and position designations (e.g., operator, millwright, engineering, safety,**  
5 **environmental, HR, etc.).**  
6 **b. All assumptions underlying that analysis.**  
7 **c. If the Exploits units are included in the Newfoundland Power definition,**  
8 **please provide the information requested in parts (a) and (b) for them**  
9 **separately.**
- 10  
11 a. Newfoundland Power completed an assessment of the incremental resources it  
12 would require to operate 7 small hydro facilities currently operated by Hydro on  
13 the Island Interconnected System. The *pro forma* results of this assessment are  
14 provided in response to Information Request PUB-NP-094, Attachment A.  
15  
16 b. See response to Information Request PUB-NP-094, Attachment A, Appendix C  
17 for the assumptions, data and calculations used to complete the resource  
18 assessment for small hydro operations.  
19  
20 c. The resource assessment for small hydro operations, provided in response to  
21 Information Request PUB-NP-094, Attachment A, includes separate assessments  
22 for: (i) the Exploits generation facilities at Grand Falls and Bishop's Falls; and (ii)  
23 5 other small hydro facilities currently operated by Hydro on the Island  
24 Interconnected System.
