
1 Q. In reference to “ponding” opportunities, please provide any and all recently
2 available information (since November 2018) consisting of analyses, reports,
3 internal memorandum, public or private presentations, etc. on the analytical
4 approach being used to assess “ponding”, or the use of import energy and existing
5 reservoir capacity to optimize use of the Province’s supply resources. If analyses
6 exist, please provide quantitative information in Excel format.

7

8

9 A. Nothing has been prepared since November 2018 that describes the analytical
10 approach used to assess “ponding.”
