

1 Q. What is Newfoundland Hydro's estimate of forecast system marginal capacity costs,
2 from 2020 through 2030? Please provide additional explanation, including a
3 description of key driving factors, as necessary to support the estimate, including
4 explanation of how sensitive the estimate is to key driving factors.

5

6

7 A. Please refer to Nalcor's responses to PUB-Nalcor-121 and PUB-Nalcor-122.
