

- 1 Q. With respect to the additional Department of National Defence (“DND”) load  
2 currently anticipated in 2020, please indicate:
- 3 a. Whether or not a contract for this additional capacity has been signed with  
4 DND;
- 5 b. Whether or not Hydro has had exchanges with DND regarding its willingness to  
6 accept interruptibility or other curtailment options. If so, please provide details  
7 of these exchanges. If not, why not?
- 8 c. More specifically, whether or not Hydro has asked DND what compensation it  
9 would require for curtailment during the winter peak;
- 10 d. Whether or not Hydro has provided DND with any estimates of its future rates,  
11 from 2020 onward, and, if so, if DND has indicated any price sensitivity with  
12 regard to its future power requirements, and
- 13 e. Whether or not Hydro has asked DND if it would go ahead with its planned load  
14 increase if it were required to take responsibility for a portion of the additional  
15 capital cost required to allow Hydro to provide such service.
- 16
- 17
- 18 A. Please refer to the response for question 8 in “Attachment 2 – Responses to  
19 Labrador Interconnected Group Questions”, submitted by Hydro on March 6, 2018.
