

1 Q. **Re: Labrador Expansion Study, p. 21 (pdf), note 14**

2 Citation:

3 In the event Tacora operations do not materialize, the baseline load
4 forecast will not exceed the 350 MW capacity of the existing transmission
5 system. The resulting impacts of such a change in forecast are addressed in
6 sections of this report relating to transmission system expansion plans.

7

8 Please provide the baseline peak load forecast for Labrador West, without the
9 Tacora loads, distinguishing between data centre loads, industrial loads and other
10 loads.

11

12

13 A. The capital project under consideration pertains to the transmission reliability and
14 capacity in Labrador East; the load in Labrador West is not a relevant issue for this
15 proceeding.
