

1 Q. **Volume I: Holyrood Overview**

2 Hydro states on page 5, line 22, that the Standby Production Phase will run from the  
3 “second quarter 2018 through to the end of the winter 2021”.

4

5 Please provide details of the off-Island supply that will be secured and whether  
6 there will be any associated capital expenditures required.

7

8

9 A. Details of the island supply that will be secured have been provided as a result of  
10 another proceeding before the Board (see Hydro's August 4, 2017, submission in  
11 relation to the Board's Investigation and Hearing into Supply Issue and Power  
12 Outages on the Island Interconnected System - Phase Two).

13

14 No additional capital expenditures by Hydro are anticipated to enable these sources  
15 of off-island supply to be secured and delivered to Hydro's customers.
