

1 Q. **Reference: 2018 Cost of Service Methodology Review Report dated November 15, 2018**

2

3 Did Hydro consider the possibility of treating each Island Industrial Customer as a separate
4 class in the cost of service study, or at the very least, treating CBPP as a separate customer
5 class, in light of Hydro's statement on page 18 (lines 7 to 10) that it *"believes CBPP should*
6 *have the opportunity to manage its generation as efficiently as possible and, to that end,*
7 *proposes to work with CBPP in the rate design review planned for 2019 to develop a*
8 *proposal to achieve this objective"*?

9

10

11 A. Newfoundland and Labrador Hydro did not consider revising its customer class definition
12 for Island Industrial Customers. Newfoundland and Labrador Hydro believes implementing
13 an approach that promotes efficient management of the Corner Brook Pulp and Paper Ltd.
14 generation does not require the removal of Corner Brook Pulp and Paper Ltd. from the
15 Industrial Customer Class.
