
1 Q. **Reference: Newfoundland and Labrador Hydro Cost of Service Methodology Review**
2 **Report, Appendix A – Cost of Service Methodology Review prepared by Christensen**
3 **Associates Energy Consulting, November 15, 2018, November 15, 2018, Page 22, Table 2.**

4
5 Christensen shows, at Table 2, that SaskPower is using an equivalent peaker method to
6 classify generation costs. How long has that method been in use, and why was that
7 method adopted?

8
9
10 A. This response has been provided by Christensen Associates Energy Consulting.

11
12 CA Energy Consulting does not have the information necessary to answer those questions.
13 We do not believe that information is relevant or necessary for review of the issue of
14 generation classification method.
