

1 Q. Further to the above, does Hydro's pandemic preventative policies and procedures conform
2 with the pandemic preventative requirements established by the health authorities?

3 A. Newfoundland and Labrador Hydro's ("Hydro") policies and procedures conform to the
4 pandemic preventative requirements established by health authorities. Hydro's pandemic
5 preventative policy development approach is based on primary medical research and industry
6 best practices, as it relates to Hydro's business practices. Where applicable these policies are
7 supplemented by recommendations from the World Health Organization, and Centre for
8 Disease Control.
