

- 1 Q. Is Hydro still anticipating its filing of the Near Term Generation Adequacy Report, in the
2 Reliability and Resource Adequacy Study Review, by May 15, 2020? Will the Near Term
3 Generation Adequacy Report include information, in relation to maintaining the Holyrood HRD
4 as capable of reliable and safe operation to end baseload production, not provided with this
5 Application or in Hydro's responses to the requests for information filed in this Application?
- 6 A. Newfoundland and Labrador Hydro intends to file its Near-term Reliability Report on May 15,
7 2020 as scheduled. At this time the Near-term Reliability Report will contain no additional
8 information beyond that provided in this Application and its associated responses to Requests
9 for Information.
