

1 Q. Could wood pole line inspections for both Hydro and NP be combined under one entity to effect
2 cost savings? How many wood poles are managed by Hydro? How many wood poles are
3 managed by NP?

4
5

6 A. Please refer to Newfoundland and Labrador Hydro's ("Hydro") response to CA-NLH-016, filed as
7 part of this proceeding.

8

9 Hydro manages approximately 26,000 transmission poles and 65,000 distribution poles. Hydro
10 would not be able to accurately confirm the number of wood poles managed by Newfoundland
11 Power; the question is best answered by Newfoundland Power.
