

1 Q. It is understood that Emera owns transmission lines on the Island Interconnected System. Are  
2 these lines under the operational control of the NL System Operator? Who maintains these  
3 lines?

4  
5

6 A. Emera owns one 230 kV transmission line that is part of the Island Interconnected System. TL  
7 269 runs between Bottom Brook Terminal Station #2 and Granite Canal Tap Station. TL 269 is  
8 under the operational control of the Newfoundland and Labrador System Operator; however,  
9 Emera is responsible for the maintenance of all assets that it owns, including TL 269.
