7

2020 expenditures include year two of the Muskrat Falls to Happy Valley Interconnection and the Wood Pole Line Management (“WPLM”) Program. Subsequent CBAs in the five-year plan include only the WPLM Program.

8 Under which program does Hydro undertake maintenance and refurbishment activities on its  
9 steel transmission towers? Please provide actual capital expenditures by year for maintenance  
10 and refurbishment of steel transmission towers for the period 2014 to 2018, and forecast  
11 expenditures for the period 2019 to 2024.

12  
13

14 A. Newfoundland and Labrador Hydro (“Hydro”) conducts regular inspections on steel transmission  
15 towers and carries out required corrective maintenance under its operating budget.
