2 **NLH-031, lines 5-7.**

3
4 CHI ranks the feeder based on the impact the feeder reliability has on overall
5 corporate reliability indices; executing capital upgrades on these feeders will
6 improve the corporate level statistic.

7
8 How does Hydro prioritize distribution reliability projects among feeders with reliability statistics
9 that impact on overall corporate reliability indices and those that indicate customers on the
10 feeder are experiencing worse reliability?
