7 A. As the review of the mandate of the Board of Commissioners of Public Utilities has not been
8 completed, Newfoundland and Labrador Hydro ("Hydro") has no information on the types of
9 changes to the *Electricity Power Control Act, 1994* or the *Public Utilities Act* that may be
10 considered or enacted, if any. Absent this information, Hydro is unable to speculate on any
11 impacts to the General Rate Application process.
