

1 Q. Please indicate how the Island Interconnected System capital costs in Table 2 [\$1.810 million] in
2 Schedule 1 of the Application reconciles to Table 1 [\$1.054 million]?

3

4

5 A. The \$1.054 million in Table 1 is the gross capital cost of electric vehicle charger investments on
6 the Island Interconnected System in 2021. The net cost after federal government funding is
7 \$0.724 million (also shown in Table 1).

8 The \$1.810 million in Table 2 is the forecast capital cost of charger investment from 2021
9 through 2025, which includes the net 2021 cost of \$0.724 million from Table 1.
