

1 Q. Is 1,610 GWh the total savings for 2021-2025 years? If yes, please provide savings by year and by
2 program showing energy savings during peak period and non-peak period.

3

4

5 A. Please refer to Schedule 3, Table 4 of the application for energy and demand reduction
6 estimates by year. Newfoundland and Labrador Hydro does not have data regarding energy
7 savings between peak and non-peak periods.
