

- 1 **Q. Reference: “2021 Capital Budget Application,” Newfoundland Power, July 9, 2020,**
2 **Volume 1, Schedule B, Transmission Line Rebuild (Clustered) at p. 21–23.**
3
4 **Over the past ten years, how much of Newfoundland Power’s transmission system**
5 **has been rebuilt? Please provide response in both kilometres and percentage of total**
6 **transmission.**
7
8 A. Over the 10-year period 2010 to 2019, approximately 273 kilometres of Newfoundland
9 Power’s transmission system has been rebuilt. This represents approximately 13% of the
10 Company’s total transmission system on a kilometre basis.¹

¹ Newfoundland Power maintains approximately 2,060 kilometres of transmission line
(273 / 2,060 = 0.13, or 13%).
