

1 Q. Has NL Hydro considered and evaluated the potential revenue losses from a scenario in which
2 users of non-firm power do not purchase monthly power due to a high price and NL Hydro is
3 unable to export some or all of its power? What are the potential financial consequences to NL
4 Hydro in such a scenario?

5

6

7 A. If non-firm energy users do not purchase any power in a particular month, it is expected to have
8 no financial consequence to Newfoundland and Labrador Hydro (“Hydro”). Hydro does not
9 currently forecast or rely on non-firm power sales.
