

- 1 Q. (Reference CA-NP-116) Mr. Coyne was asked, *inter alia*, to run a simple linear
2 regression of the return of the TSX Utility Index against the return on the long
3 Canada Bond and report the results. In response to CA-NP-116 Mr. Coyne
4 indicated that he has not run the requested regression analysis. If Mr. Coyne is
5 unwilling to do the requested regression analysis, can he provide the underlying
6 data to allow external analysis of his data?
7
- 8 A. See Attachment A for the requested data.
9
- 10 Attachment A is available in electronic format on Newfoundland Power's stranded
11 website at: <https://ftp.nfpower.nf.ca/>.
