

1 Q. (Re: *2016 Standby Fuel Deferral Application*, February 5, 2016 Report, Page 8) Hydro  
2 states, “. . . As a result, Hydro does not consider it appropriate to operate Units 1  
3 and 2 at their maximum capacities until full replacement can be made during the  
4 annual maintenance outages of 2016.” Does Hydro anticipate being able to  
5 operate Units 1 and 2 up to their maximum capacities once the tube replacement  
6 work is complete?
