

1 Q. Further the 2016 Standby Fuel Deferral Application, page 1, please confirm if the  
2 decision to “proactively increase” the amount of thermal generation in January and  
3 February of 2016 resulted in spillage of water in the time period since this  
4 generation was dispatched.

6

7 A. Hydro’s review of the spill events in 2016 determined that the amount of thermal  
8 generation in January and February of 2016 did not result in the spillage of water.  
9 Please refer to Hydro’s response to NP-NLH-009 for a discussion of the causes of  
10 the spill events in 2016.
