

1 Q. **Tab 21; Volume II: Install Breaker Bypass Switches - Howley**

2 What are the costs associated with the remote control and monitoring of the  
3 breaker bypass switch as well as the costs of any protection and control  
4 modifications required in conjunction with the bypass switch installation? Have  
5 these been included in the overall cost of this project?

6  
7

8 A. Costs associated with control of the bypass switch as well as protection  
9 modifications are estimated to be \$50,640. This has been included in the overall  
10 cost of the project.
