

1 Q. **Newfoundland and Labrador Hydro - EFLA Consulting Engineers Report - *Structural Capacity***
2 ***Assessment of the Labrador Island Transmission Link, April 30, 2020 ("EFLA" Report)***

3 Page 23 of the April 30, 2020 EFLA report observed that Hydro provided "as-built" line profiles
4 for the study. Please describe how Hydro developed the as-built profiles and how the as-built
5 profiles were used in the EFLA study.

6

7

8 A. Please refer to Newfoundland and Labrador Hydro's response to PUB-NLH-082.
