

1 Q. **Reference: CA-NLH-072**

2 Please respond to the following:

3 a) Are Hydro and Newfoundland Power partners in the electrification and conservation
4 programs?

5 b) Does Newfoundland Power include electrification program initiatives in its 2023 capital
6 budget application?

7 c) Has Hydro approached Newfoundland Power about adjusting, refiling and abandoning the
8 electrification program that is now before the Board in light of the expectation that
9 Holyrood will remain in operation in standby mode and possibly in generation mode for the
10 next 8 years? If not, are such talks scheduled?

11

12

13 A. a) Yes. Newfoundland and Labrador Hydro (“Hydro”) and Newfoundland Power Inc.
14 (“Newfoundland Power”) plan to jointly develop and deliver electrification and conservation
15 programming under the takeCHARGE partnership.

16 b) It is Hydro’s understanding that Newfoundland Power has included proposed capital
17 expenditures for public Direct Current Fast Chargers in its “2023 Capital Budget
18 Application.”¹

19 c) No. Please refer to Hydro’s responses to CA-NLH-112 and CA-NLH-114 of this proceeding.
