

1 Q. **Reference: Schedule 6, Program 12 Renew Circuits Breakers (2024-2025), Page 2, Table 1**

2 What is the timeframe associated with the ‘Risk of Failure” (e.g., one year, five years, etc.)?

3

4

5 A. The risk of failure is the estimated probability that the completion of this work will prevent a  
6 forced outage to equipment that would otherwise occur within two years of the proposal  
7 timeframe.
