

1 Q. Inputs and outputs associated with the five (5) LIL shortfall runs referenced in section 4.0 and
2 Appendix B of the evidentiary update.

3

4

5 A. The model used to produce the shortfall runs use the same inputs identified in the attachments
6 to Request 2. The outputs of the shortfall model are included in the “Unserviced Energy”
7 spreadsheet, provided as Request 3, Attachment 1.
