

1 Q. **Reference: Application, 2025 Capital Budget Overview, page 3**

2 Table 1 includes a fully-contributed cost of \$0.2 million for Construction and Installation of Ultra-
3 Fast Electric Vehicle Charging Stations.

4 a) Does this expenditure correspond to the \$231.3 thousand expenditure given in
5 Appendix A, page A-2?

6 b) Will it be included in rate base, and if so, to which customers will it be assigned, and
7 why?

8

9

10 A. a) Yes, it is confirmed.

11 b) These vehicle charging stations were approved by the Board of Commissioners of Public
12 Utilities in Order No. P.U. 21(2023), which also directed that the related costs should not be
13 included in the rate base or recovered from customers at this time. As such, Newfoundland
14 and Labrador Hydro will exclude both the capital costs and corresponding government
15 funding from its calculation of the rate base at this time.
